(a) Licences will be granted on basis of past imports from Germany.

(b) Licences will be granted for engines up to and inclusive of 10 H.P. from Japan. Past imports of the financial year 1949-50 from Japan will also be taken into account as a special case for calculation of a quota, but where that year is chosen the quota percentage shall only be 20 per cent. of half of that year's imports.

(c) Licences for import of Diesel Engines of 10 H.P. and below will be granted from soft currency countries, on basis of half the total past imports from dollar and soft currency in any one complete financial year.
